

KLGR radio in Redwood Falls, MN is proud of our 50 years of broadcasting excellence. We have a local news director who delivers 12 local newscasts throughout the day. We also have a local sports director. Besides providing our area towns with scores from their local high schools, we broadcast over 200 high school games every year. We provide our audience with school announcements during snowstorms. And in the summer months, we go on the air with wall to wall coverage of severe weather. Our Morning Show and Afternoon Club entertain, an inform, our listeners with interesting guests. Every Thursday was air a Chamber Government Affairs program. And we have a monthly Area Concerns program. We also provide tens of thousands of dollars in PSA time to our area community organizations. I could go on and on and on telling you about how important we are to our local communities. We are litterally a lifeline to the public in Southwest Minnesota. We are truly the definition of a "Full service station". This is typical of small market radio stations all accross the United States. I think you'll find that most stations go far and above what's required of them by the government.  
Thanks you for your time.
